## **DETAILED ACTION**

### ***Allowable Subject Matter***

1. Claims 21-26 are allowed.

The following is an examiner's statement of reasons for allowance: none of the prior art of record nor the prior art reviewed during the Examiner's search included the features and functionality of the auto-opening lid as claimed, nor would it be obvious to incorporate those limitations. Specifically, few prior art references have been found that detail the structure and function of the locking mechanism in claim 21. The difference being that few closure mechanisms disclosed in the prior art require two moving parts, both of which are connected to each other, disposed on the container as opposed to the lid, and both connected to the container. Most other locking mechanisms incorporate at least some of the structure in the lid and/or only one of the moving mechanisms is in contact with the lid and the other mechanism restricts the first mechanism. As a result of the added structure that contains the expanded details of the function spring, grooves, and guide surface among other features, as now incorporated into claim 21, no prior art has been encountered that anticipates these additional features and/or renders them obvious.

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

**Conclusion**
